PROFESSIONAL SUMMARY

Junior Java Developer with a strong foundation in backend and full-stack development, specializing in Java, Spring Boot, REST APIs, and modern web technologies.

Experience working in agile, distributed teams and developing real-world applications, including an AI-based system.

Motivated to grow in international environments and contribute to scalable enterprise solutions.

PROFESSIONAL EXPERIENCE

Intern – Software development

RISE Research Institute of Sweden, Borås

Nov 2025 – May 2026

- Worked in an agile, distributed development team
- Contributed to backend and full-stack development tasks
- Collaborated using Git and modern development workflows
- Participated in sprint planning, stand-ups, and code discussions
- Gained experience in building scalable and maintainable solutions

PROJECT EXPERIENCE

MigraineSign – AI-based Gesture Recognition Web Application

(Thesis project, 2026)

- Developed a web-based application using JavaScript, TensorFlow.js, and modern frontend frameworks
- Implemented real-time gesture recognition translating sign language into text
- Designed a client-side architecture with focus on performance and privacy
- Applied low-stimulus UI principles for accessibility
- Integrated machine learning model into a full-stack web solution

EDUCATION

Higher Vocational Education - Java Developer

August 2024 - May 2026

Jönköping University

- Focus on Java, backend development, REST APIs, and modern frameworks
- Agile methodologies and real-world project development

Health and Social Care Program, 2020

MOA - Jönköping

Bachelor's degree in computer science: 2002

National University - Dhaka, Bangladesh

- Four-year program

RECIPIENT OF THE BEST THESIS AWARD 2026

Awarded by Campus Värnamo and industry representatives for the highest-ranked thesis project in the Java Developer program.

PREVIOUS EXPERIENCE

Assistant Nurse - Länssjukhuset Ryhov, Sweden
Feb 2020 – Aug 2024

Care Assistant - Jönköping Municipality, Sweden
May 2019 – Mar 2020

Survey Interviewer – IWD, Jönköping, Sweden
Jul 2017 – Aug 2017 (summer job)

Administrative Assistant - IOM- UN Migration Agency, Bangladesh
Feb 2006 – Feb 2017

- Developed strong communication, problem-solving, and teamwork skills
